ALMANAC & DIRECTORY

FOR

1868.

PRICE RUPEES 8; BY POST RUPEES 8½

IN preparing the Calendar for 1868, the compiler has kept two objects prominently before him. First, so to classify the contents of the Book that every piece of information shall be found under some general head to which it logically belongs, thus making the mere arrangement of the book almost equivalent to an index. Second, to make the work really and in fact a book of historical reference as regards the year 1867 as well as a mere almanac for 1868; in other words to squeeze the essence (as regards India and particularly Bombay) of the year now ended into the Calendar for the following year. Thus, for example, under the head of the Bank of Bombay will be found an elaborate account, extending over 12 pages of the progress of the negociations for amalgamation and reconstruction; and, again, under the head, say, of the Mazagon Company will be found a history extending over several pages of all that has been done in connection with that Company during the year.

Further, it is plain that very important matter has been entirely overlooked in the Calendars hitherto published in the Bombay Presidency. There is no reason why the Municipal business should be utterly ignored. Not only, therefore, has the Commissioner's Report for 1866 been introduced at full length, but Dr. Hewlett's Report with its interesting appendix, Mr. Crawford's Budget for the current year, and the Report of the Financial Committee, have all been given. Beyond these, however, was a mass of official material, such as the discussions between Government and the Municipality regarding the drainage outfall: these have been carefully epitomised in chronological order, and the Municipal business alone fills upwards of eighty pages.

Again, it would be convenient for the public to have a ready means of referring to the proceedings either of the Legislative Council or the Bench of Justices; their meetings during 1867 have been accordingly shown in abstract with a view to ready reference.

Moreover, from the system of Government prevailing in India, there is a vast amount of material floating from Government to the public every year, which is easily lost sight of and which it is desireable to fix in some permanent and conveniently available shape for reference by the miscellaneous public. The ground work for this has been laid in a statistical section. When these statistics have accumulated year after year for a few years, they will form, if carefully and truthfully prepared, a mine of invaluable information to every man who takes an interest in public affairs.

Carrying out the same idea, the compiler has prepared specially for the Calendar a complete review of the Trade of Bombay during 1867 with illustrative tables, which it is hoped will be found useful to the general and particularly the mercantile public. It has also been thought desireable to give an alphabetical list of the chief native inhabitants.

The work has been in other respects carefully prepared and contains 870 pages printed in small and compact type.

NOTICE.

CONFIRMATORY of our recent announcement, we have the pleasure to inform our Friends and Constituents in Western India, that we have RECOMMENCED BUSINESS IN THIS CITY, and that our OFFICES are situated in DEAN LANE, Bombay, where communications should be addressed us.

We beg also to notify that Mr. JOHN EDWARD BODGERS is authorized to sign our Firm from this date until further notice.

Bombay, 31st December 1867.

OUTLER PALMER & Co.,
(of London and Bordeaux.)

WITH reference to the foregoing, we beg to announce that in addition to our own exclusive business of WINE AND SPIRIT MERCHANTS, we have been entrusted with the AGENCIES of the following WELL-KNOWN LONDON HOUSES, and we shall shortly invite the attention of Traders to samples:—

GIBBON & Co., Iron Merchants.—Manufacturers of Iron Bar, Hoop, Sheets, Boiler Plates, and Rupee Bars, also Welsh Iron, Galvanized and Corrugated Sheets.

THE PATENT NUT AND BOLT COMPANY.—Manufacturers of the Patent Cotton Bale Lock-tie (we call special attention to this invention as economically superseding the rope bands now in use), Rivets, Coach Screws and Bolts, Set Pins, &c.

BUNNETT & Co.—Manufacturers of Revolving Iron and Wood Shutters, Warehouse Lifts, Brass and Zinc Name Plates, &c.

MERRYWEATHER & SONS.—Manufacturers of Fire, Garden and Conservatory Engines, Fire Escapes, Ladders, and Pumps, (obtained latest Medals.)

S. B. BEAL.—Fine Art Pictures, Engravings, and Photographs.

SIR W. BURNETT & Co.—Manufacturers of Disinfecting Fluids for preserving Timber, Canvas, Linen, &c. from Mildew, Rot, and the Ravages of White Ants. (Railway Companies and Ship owners are invited to ascertain particulars of the above.)

COPELAND & Co.—Wholesale Preserved Provision Merchants. This house is second to none in their particular line of business. We specially invite Indents for their goods.

HOLLAND & Co.—Manufacturers in Leather, of Mill Bands for Engines, Hose Pipes, White Laces, Rops, Cord, Gas Band, and Vulcanized Indian Rnober Suction Hose and Bands. This firm's specialities in Leather are worth attention. (*Samples on show.*)

MOULE & Co., (LIMITED).—Manufacturers of the PATENT EARTH CLOSET or COMMODE, for which the Government of India recently awarded MR. MOULE the sum of £500 in testimony of their great appreciation of the invention. These CLOSETS are PARTICULARLY ADAPTED FOR INDIAN REQUIREMENTS; their action is most simple, and can be easily arranged by native servants. They effectually remedy all the evils arising from the ordinary Commodes, and are composed upon the well-known properties of earth as a deodorising agent,—a GIVEN QUANTITY of earth destroying all smell and entirely preventing noxious vapours and other discomforts. Fifty of these Earth Closets as a first instalment are now on the way. SAMPLE CLOSETS will be landed very shortly. It is impossible to describe within the limits of an advertisement the marvellously simple mechanical contrivance by which these Commodes entirely do away with all nuisance. They can be fitted to accommodate HOSPITALS, BARRACKS, HOTELS, as easily as for use in a private family. Her Majesty's Government have now caused them to be introduced into all the principal Military Stations and Hospitals in England.

The Rev. Henry Moule, the inventor, has just received from the Indian Government a gratifying and substantial recognition of the value of his system of dry earth sewage. The following is an extract from a letter addressed to him from the India Office in London, dated September 25th, 1867:—"I am directed by Sir Stafford Northcote to forward for your information copies of Reports which have now been received from the Government of India, on the successful and general adoption of your dry earth sewage system in India. In consideration of the very satisfactory character of these Reports, and on the recommendation of the Government of India, the Secretary of State for India in Council has much pleasure in authorising the payment to you of the sum of Five hundred pounds."

THE FLORENCE SEWING MACHINE COMPANY have also solicited us to receive orders for their greatly admired Machines.

We are also empowered to receive Indents for Carriages of every description from the MANUFACTURERS TO HER MAJESTY THE QUEEN, and for all kinds of AGRICULTURAL IMPLEMENTS from Messrs. RANSOME and SIMS.

Further particulars and many illustrations of the abovenamed articles can be obtained and inspected at our offices in DEAN LANE, BOMBAY.

CUTLER, PALMER & Co.

NOTICE.—TO MESSES, GENERAL MERCHANTS, and EUROPEAN RESIDENTS OF WESTERN INDIA, &c. &c. We beg respectfully to solicit your commands for our WINES, SPIRITS, and CORDIALS now that Messrs. ROGERS & Co. have ceased supplying the same. Our business in Europe has for the last FIFTY YEARS been confined to the Wine trade, and being Shippers on the London and Bordeaux market, we claim to be in a position to meet the requirements of connoisseurs; superior to all competing houses in Bombay. Our Brand is extensively known, and appreciated in all parts of the civilised world, we trust that the re-establishment of a Branch of our House in this Capital may meet with general support. We shall do our utmost to merit the same.

CUTLER PALMER & Co., Dean Lane Bombay

We subjoin our LIST OF SELECTED WINES for this Market: and call special attention to our greatly reduced prices.

CASHMEER AND UMRITSUR.
SHAWL DEPOT AND AGENCY.

MESSRS. DAVEE SAHAEE AND CHUMBA MULL, of Umritsur, have the honor to inform those who have hitherto been pleased to deal with them, and the public of India in general, that they continue to supply either—at once from their own extensive Stores,—or to order, when special patterns or manufactures may be required,—every article made of Shawl, wool, (technically known as Pushmeena, because manufactured of Pushm,) and that they have now a large and varied Stock of genuine Cashmeer Shawls (long and square), and Umritsur ditto, which designation includes the looms of Noorpoor, Jelalpoor, Loodeeana, &c., &c. Their Maleeda shawls, long and square, braided in Silk and of the newest patterns, are very handsome, and peculiarly suited for cold climates, Maleeda is sold (as also Puttoo) in pieces.

Their Chogas, Opera Cloaks, Table Covers, &c., (prepared to order chiefly) are universally sought after. Their Dress pieces, Capes, Polkas, &c., similarly prepared to order) are the admiration of all purchasers, while their Chudders (woven of the finest Cashmeer shawl-wool thread) have obtained a world wide reputation. No less than four hundred were sold at the last Paris and London Exhibitions, and the enquiries for them in Paris, this year, were so numerous that D. S. and C. M. feel assured thousands might have been disposed of, had they been available. Varieties of these are on hand, with needle-work Shawl border, braid borders and plain black borders, and sell readily at from 70 to 80 Rs., according to quality and work. The price of the more ordinary ones is from 35 to 37 Rs.

The Silks, manufactured to the order of Davee Sahaee and Chumba Mull, have been greatly admired; and it may be stated, in witness of their claim to public support in every branch of their business, that they hold Certificates of Honorable mention, Silver medals without end from Paris, London, Lahore, Jubbulpore and Agra, and one of the three gold medals awarded by the Punjab Exhibition of 1864, in proof of the superior excellence of the items they exhibited.

They are prepared to receive orders from Officers Commanding Regiments, European & Native Artillery, Cavalry, or Infantry, for Silk Sashes, Kummerbunds, Pugrees, &c. but require samples, as a guide, in most instances, as patterns vary so much.

Note.—Messrs. Davee Sahaee and Chumba Mull, General Agents, take the opportunity of stating that with the view of saving all unnecessary references, their prices are fixed, and that they will on no account, abate anything on the same, whether the orders they may be favored with are large or small.

Those who are good enough to favor them with orders will please to write legibly their full address.

MAZAGON POLICE COURT.—31st Dec.

(Before R. H. Sherwell, Esq.)

Selling Liquor without a License.—Khodadad Khodamorad was charged with selling liquor without having obtained a license from the Commissioner of Police. The defendant was adjudged guilty and fined in the sum of Rs. 10.

THE NEW LIQUOR ACT FOR BOMBAY.

The Commissioner of Police in a letter dated the 20th December last submit to Government the lists required by section 6 of the new Act for the regulation of the sale of spirituous and fermented liquors in the city of Bombay, and requested sanction to the issue of the licenses proposed for the ensuing year with as little delay as possible, and to the fees as noted in one of the lists being charged for them. The following is the Government resolution thereon :—

Resolution.—There is no time this year for a thorough revision of the list, as the commencement of the new year is so close at hand. The decrease of liquor shops, therefore, cannot be very great, and the Governor in Council approves of the discontinuance of the five licenses for hotels, three licenses for taverns, and eight licenses for liquor shops, mentioned in List No. 2.

2. Before next year the Commissioner of Police should thoroughly revise the list of liquor shops, with a view to the reduction of liquor shops in localities where there are many close together. The date of the original grant of the license, and the number of times penalties have been imposed, should be stated. The rate of fee chargeable to those liquor sellers who are in the neighbourhood of the shop to be closed may then be raised.

3. With regard to the rates proposed for hotels, the increase seems to be too great. The minimum of Rupees 200 for hotels may be raised to Rupees 300. But the maximum of this class should not exceed Rupees 400, as it is not wise to discourage the better class of hotels by taxing them heavily in proportion to the hotels where the accommodation, and everything else, is inferior. Those entered for the next year at Rupees 500, or 600, should be fixed at Rupees 400, those entered at Rupees 400 should be fixed at Rupees 300.

4. For taverns the minimum may be fixed at Rupees 250, the increase of Rupees 50 in this class of license being quite sufficient, though probably, at a future date, the minimum may be raised to Rupees 300. Those taverns which have hitherto paid Rupees 200, and which it is proposed to charge 300, should pay the future minimum, Rupees 250. Those which are proposed for higher sums than Rupees 300, having hitherto paid only Rupees 200, should be charged at Rupees 300. It does not appear equitable suddenly to raise the rates so much as the Commissioner of Police proposes in some cases.

5. For this latter reason some of the rates proposed for the arrack shops cannot be confirmed. The rates for those which are to pay the same as before are confirmed. Those paying Rupees 200, which it is proposed to charge Rupees 300, should be fixed at Rupees 250 ; those paying Rupees 200, which it is proposed to charge more than Rupees 300, may be fixed at Rupees 300. Of others which it is proposed to raise (*a*) from above 200 to 300, the rates are confirmed ; (*b*) from 300, or above 300, to 400 ; the rates are confirmed ; (*c*) from above 300 to 500, the rate should be Rupees 450 ; (*d*) from above 700 to 800 confirmed.

6. The rates for toddy shops are confirmed, with the exception of those proposed to be fixed at Rupees 100. The rates for these should be Rupees 75, a maximum of 50 per cent. increase being ample.

7. With regard to paragraph 5, the Commissioner of Police must report the cases when they occur, and his recommendations will then be attended to.

BOMBAY MARKET DURING 1867.

(The following are extracts from the Commercial Review of the year, written for the Bombay Gazette's Calendar for 1868. The extracts given are preceded by general comments on the trade of 1867 ; and a report on Grey Goods and Twist.)

Metals.

In our Metal Market during the year, no change of great importance has manifested itself. Of Copper, Braziers and Sheathing, which form an important item in our Metal imports, supplies do not exceed those of the previous year, but although we have at intervals experienced considerable activity, there has been a sluggishness about prices during the year which makes us think that consumption is rather declining, and no doubt the decline in Cotton must seriously curtail up-country requirements. In the latter part of July the highest point of the market was reached, Brazier then touched Rs. 52-8, but it has since been gradually getting weaker, towards which, however, the decline in the home market may be said to have helped. Australian Tiles reached Rs. 55 in June. This was likewise the highest price of the year. The imports of Yellow Metal Sheets and Sheathing, compared with those of 1866 are also full ; prices until near the end of February experienced little change, but the smallness of the exports of Sheathing from England then attracted some notice, and a considerable demand arose, sales being effected at as high as Rs. 45 ; the market for the remainder of the year has been quiet, but a comparatively steady business has been done, the closing prices being Rs. 37 to 38 for Brazier and Rs 30 to 30½ for Sheathing. Of Rod and Bar Iron, supplies during the year have been on a very full scale, but as consumption is gradually increasing, these larger supplies have generally been met off at satisfactory prices ; values however at the close are rather lower than in the beginning of the year. Swedish iron has yielded good returns to shippers in the past twelve months, and shipments which arrived say in October must have left large profits to importers ; the imports throughout have been decidedly too small for consumer's wants, but, as often happens in such cases, we fear that during the ensuing year our supplies will be largely in excess of requirements, the profits upon recent shipments inducing further operations on an extended scale. In the other Metals usually imported there is no great change to notice, but we may remark that the following are now all higher in value than at the beginning of the year, viz., Pig Lead, Quicksilver, Steel in Tubs, English Spelter, and Tin Plates.

Coals.

In this Import, the consumption of which is steadily increasing, there have been good profits realised both by importers and speculators during the year, more particularly in the latter part, at when the probability of there being a greatly increased consumption on account of the Abyssinian Expedition became apparent. Exports from home have in consequence largely increased, and while we write there are probably not less than 150,000 tons afloat for this port, the shipments for September and October alone being 1,10,000 Tons. For the first three months of the year the Imports were moderate, and judging from the advancing state of the market in the latter end of January and the early part of February, when Welsh Hartley advanced to Rs. 44, the demand was then considerably in excess of the supply. During March and April the market experienced a decline of Rs. 10 and remained at this decline throughout May ; in the early part of the following month, June, prices were slightly firmer as the imports during May had been very small, but no change of importance took place, the above description being sold at Rs. 31 to 32 alongside. July saw some reduction in stocks, and as both of the Railway Companies were then in the market, there seemed at one time the likelihood of a very brisk business ; demand however became languid, and did not again revive till the middle of August, when some purchases were made by Government. These purchases caused a rapid advance in prices, and in the first few days of September Welsh Hartley had reached Rs. 45 per ton alongside. During the remainder of this month and also in October the rate for ready coal continued steady, but quotations for arrival were weaker. Throughout November the market remained dull, the heavy exports advised having a depressing influence upon cargoes afloat, while in December the weakness extended to ready coal, the quotations at the close being Rs. 34 to 35 for Laird's Welsh Hartley alongside and Rs. 30 to 32 for arrival.

EXPORTS.

Our Export trade during the past twelve months shows that in all exports except Cotton, our shipments have fallen off very considerably. The decrease is most noticeable in Linseed, the exports of which for the eleven months ending 30th November being only 30,523 cwt. against 1,45,540 cwt. in the corresponding period of 1866. The decrease in Cotton is not quite so much marked. The decrease in Cotton giving us only 645 cwt. shipped in 1867 ; against 30,014 cwt. in 1866. Rapeseed compares more favorably than either of the preceding, but of it also the Exports are largely reduced, there being 32,959 cwt. shipped from 1st January to 30th November 1867 against 85,138 cwt. in the same months of 1866. The great decrease in these exports is attributable to the increased quantity of land taken up for Cotton cultivation, and during the ensuing year we shall doubtless see shipments of all descriptions of seeds going forward on a more extensive scale. Values of Linseed and Rapeseed for the first three months of the year had an upward tendency, but supplies came in more freely in April, and for the remainder of the year prices have been weaker, closing as follows :—Linseed Rs. 6-2, Rapeseed Rs. 6-4 against Rs 7-2 and Rs.6-14 respectively at the commencement of the year.

Pepper.

Shipments have also largely decreased during the year owing to a large portion of what used formerly to be exported from this place being now shipped to England direct from other Ports on the Coast.

Wool.

Wool.—From the heavy exports of this article in 1866 larger than at any time since 1859 it was anticipated that during the past year exports would have continued on a comparatively full scale. This, however, has not been the case ; on the contrary, exports are nearly fifty per cent. less than in 1866. The actual exports are as follows : For the first eleven months of 1866, bales 63,103 ; same period 1867, bales 36,451. In accounting for this decrease it must be borne in mind that the large exports of 1866 were swelled by the great quantity of what was little better than rubbish shipped during that year, and some of which remained unsalable for months in Liverpool, while other lots, upon which an advance of £10 per bale had been given in Bombay, at a half penny per pound in the home markets. During the present year, the shipments on the whole have been of a more reliable character, but the business, which is chiefly in native hands, is still carried on at immense risk to the houses which take the consignments. Prices for the first eight months of the year were remarkably steady, but latterly the decline in the home markets has, of course, led to to a lower range of values here. We quote closing prices for Joria wool Rs. 180 to 210. Pathan Rs. 140 to 170.

Cotton

Still ranks as our staple export, and to its increased cultivation we owe entirely the great falling off in our seed exports. The quantity shipped during the first eleven months of 1867 exceeds that in the same period of any former year, but owing to the reduced value of the staple, we are not likely to have exports for some years in the immediate future at all events, on such a large scale. The market throughout the year has been gradually receding to a lower level, and like our other goods in store, shippers of cotton have had to look to compensate for speedy means of conversion, and have accepted in some cases losses, and those who have taken advantage of the overland route for shipments, if they have not escaped a profit and they have done so in many cases) have at least saved themselves from the greater loss which would have resulted if their shipments gone via the Cape. [illegible] the past year it has to [illegible] there and at some [illegible] would have been the disadvantage [illegible] investing the [illegible] With a return to normal

price of both cotton and goods, it remains to be proved whether the advantages of the Overland route will be such as to induce shippers to avail themselves of it so largely as they have done during 1867.

A large proportion of the shipments during the year have been in execution of orders from home, so that the losses all connected with the trade have sustained, have had to be borne to a large extent by importers in England. Considerable loss however must have been sustained by some of the agency houses, as during the year many shippers, weakened by losses in the previous year, have had to succumb. The very loose manner in which a large portion of the consignment business is carried on here, can hardly fail of resulting in losses, unless there is a steadily rising market, and as the business can be put on a much safer footing if the various European houses would only cooperate for this purpose, it is matter of regret that they do not see it to be their interest to do so. The year commenced with two strengthening influences operating upon the market, viz., improved home advices and the placing of numerous orders on European account ; supplies were coming in freely from the districts, but the chief description of new cotton available was Oomrawuttee, the price of which advanced to Rs. 320. A large business was done throughout this month, and values fluctuated considerably ; about the middle of the month, prices experienced a sharp reaction on its becoming known that actual stocks in Liverpool at the close of 1866 largely exceeded the estimated quantity, and on market therefore closed lower than in the earlier par of the month. During February, the market steadily declined notwithstanding strong buying by European houses ; this decline was caused by the continued receipt of unfavorable English advices, and the fear of war on the Continent, dealers also being anxious to quit stock. From this time on to the end of April there was a gradual decline ; business in the interval however was on a large scale, but the strong belief entertained by native dealers that a further decline would likely take place, shortly made them place their supplies freely on the market. For the first few days in May, the decline was not checked, but as the month advanced, and stocks became smaller, a firmer tone was imparted, business became more active, and prices hardened. This improved state of matters continued until towards the end of June, when the rains put a temporary stop to business. During July, there was little doing on European account ; for China, however, considerable purchases were being made chiefly of the lower classed and short stapled descriptions which are preferred in that market. From the beginning of August until the end of the year the market has had a drooping tendency, and shipments show a gradual decrease ; beyond this, the market in the interval presents few subjects for comment, but we may mention that the demand for China slackened in September, and during that month and the greater part of October the unfavorable character of the Home advices in a great measure stopped business on European account. The accounts of the growing crop, which were received in the beginning of October, promised a large supply, and this intelligence was calculated to weaken the market, but in the latter part of the month, and for the first half of November prices were decidedly firmer, although European houses kept very shy of business ; this firmness was partly caused by our local mills making daily purchases, and also by the issuing of an official document by the American Statistical Bureau stating that this year's crop in the States was 1,700,000 bales. In a few days, however, the tenor of the English news became very discouraging, and during the latter half of November, and the whole of December, a lower range of prices has been established, although there has been renewed buying on European account. To show the fluctuations in the market, we give below the prices current at the close of each month during the year, together with the total shipments :—

THE FRENCH YELLOW-BOOK ON ITALY.

(From the London Review, Nov. 30.)

...ders the means by which the French Go... keeps the national representatives ...ly aware of the progress of events, is the ...ion, at the commencement of each ses... certain Blue-books and Yellow-books. ...llow-book of the present year contains no ...nnumerable documents, and, together with ...hat is merely formal, presents some mat... of interest. As regards foreign affairs, the ...important of the papers have reference to ...ly, for as to Germany there is an entire silence. ...deep concern with respect to the position of ... Pope excited in the mind of the Emperor ...oleon from the early part of the present year, ...ongly evinced in this document. From the ...d of the return to power of Signor Rattazzi, ... French Government seems to have been ...mistrustful as to the safety of the Pope, and it ...requently pointed out to the Italian Cabient ...he existence of revolutionary plots for the ...struction of the temporal power. Rattazzi ...owed his determination to defeat Garibaldi's ...jects, but it is evident that he failed ...convince the French Government (except ... at first) of the sincerity of his pro... ...sions. The Marquis de Moustier, as early as ... 21st, wrote to M. de Malaret, the French ...ister at Florence, in a tone of anxiety respect... ...he great agitator, and appears to have thought ...Signor Rattazzi was too confident with ...ect to him. Rattazzi himself, however, be... ...as anxious by the commencement of October. ...he 5th of that month, M. de Malaret wrote ...s chief to the effect that the Italian Minister, ...continuing to give assurances of vigilance, ...ed he was no longer master of the situa... His fears were not without reason. He ...arrested Garibaldi on the 24th of September, ...he agitation continued unabated in all the ...cities of the kingdom. He had in a manner ...ed him a few days before the 5th of Octo... ...hat is to say, he had conducted him, with... ...any previous conditions, to his island ...in Caprera, and the Italian people thought ...saw in this act a desire on the part of the ...ernment to leave Garibaldi free to follow out ...s own devices. The Ministers of the Emperor ...apoleon thought so too and it was an opinion ...ich was certainly not without plausible grounds, ...ough we do not think it has been clearly ...wn that Rattazzi was actually plotting with the ...y of action for the overthrow of the Papacy. It ...s impossible that he, as an Italian Minister, ...ould declare himself absolutely hostile to a ...ovement which was supported by the great ...ss of the Italian people, and which the King, ...Parliament, and every successive Govern... ...ent for years, had approved in principle, while ...scribing to avoid precipitancy, and to maintain ...nternational obligations. Some degree of ...ympathy with the object of the patriots was ...rue enough, and could not well have been ...oncealed; but when we recollect that Rattazzi ...as arrested the head of the party of action, ...whose presence with his bands any ...ssibility of success entirely depended— ...he inhumed him in his island, setting seve... ...al ships of war there to prevent his escape,— ...hat he stationed a large force on the Papal ...frontier, and turned back some two thousand ...of the volunteers,—it is difficult to say that he ...declined to act with vigour against the attempt ...Rome. By the 17th of October, however, the ...French Government had made up its mind that ...the situation of the Pope was serious, and it ...telegraphed to the French charge d'affaires in ...the Eternal City—"Let the Pontifical Govern... ...continue to defend itself energetically. ...The assistance of France will not fail it." ...About the same time, the Marquis de Mous... ...tier intimated to Signor Nigra, the ...Italian Minister at Paris, that, if the Florence ...Government were powerless, France would pro... ...tect the Pope; to which Signor Nigra replied ...that such an intervention might lead to great ...inconveniences, but that Italy would accept a ...Congress of the European Powers to bring the ...Roman question to a solution. On the 18th of ...October, the French Foreign Minister informed ...his charge d'affaires at Florence of the deter... ...mination of the Emperor to despatch troops to ...Rome, should the Italian Government fail to ...carry out Art. 1. of the Convention of the 15th ...of September, 1864; and on the next day ...he made three demands on the Cabinet of ...Florence, which had all the sharpness of an ...ultimatum—viz., the suppression of the enlistment ...offices, the dissolving of the aid committees, and ...the issuing of a proclamation announcing that all ...volunteers should be arrested, disarmed, and ...imprisoned. This seems to have precipitated the ...fall of Rattazzi at any rate, he placed his resigna... ...tion in the King's hands on the following evening ...(October 20th). In the meanwhile, he replied to ...the requirements of the Marquis de Moustier by ...denying the existence of enlistment offices, by ...declaring that it was impossible for him to ...dissolve the aid committees, and by arguing that ...proclamation to announce the arrest and disarm... ...ment of the volunteers was superfluous in the pre... ...sence of the repressive measures which the Go... ...vernment did not cease to adopt. Garibaldi ...had again escaped on the 15th of October, and ...his arrival in Florence added to the confu... ...sion. It was not until after the resignation ...of Rattazzi, however, that he appeared in the ...capital, and there was then actually no Govern... ...ment existing, in any full and vital sense of the ...word. The retiring Ministers continued to ...hold their portfolios until the definitive formation ...of the new Cabinet; but they did not feel that ...they had any authority to apprehend the popular ...chief, and by the time the King had determined ...to do so by his own personal act, Garibaldi was ...on his road to the frontiers. Cialdini was nearly ...a week vainly endeavouring to form a Govern... ...ment, and he expressed to the French charge d' ...affaires his apprehension of being "unable to, ...subdue the popular impulse." That, indeed, ...was the great difficulty of the hour, whether the ...reins were held by Rattazzi, Cialdini, or Me... ...nabrea. The whole course of events has con... ...clusively proved that the Government failed to ...check the movement towards Rome, not ...because it *would* not, but because it *could* not, ...prevent such a manifestation of the national ...wishes. Rattazzi ran the peril of a revolution by ...his arrest of Garibaldi and his other measures of ...repression; but the popular tide overbore him. ...Cialdini accepted office on the understanding ...that a still more rigorous course was to be adopt... ...ed; but he immediately saw that the national ..."impulse" was too strong to be resisted, and he ...was compelled to give up the attempt. Menabrea ...himself could do little more than stand by, and ...allow the French to trample out a movement ...which no Italian Minister was able to coerce. It ...was very easy for the French Government to ...demand that the aid committees should be dis... ...solved, and that every manifestation of popular ...sympathy with Rome should be ruthlessly sup... ...pressed; but such a policy could not ...have been carried out at Florence unless by ...a suspension of the Constitution and ...the proclamation of martial law—if even then. ...This is a fact which is still more apparent now ...than it was at the time; and the French Yellow... ...book only adds to the evidence by which it is ...proved. The extraordinary success of Garibaldi, ...from the moment of his crossing the frontiers ...up to the eve of his reverse at Mentana, where ...he was defeated, not by the Pontifical but by ...the French troops, is also proved by the same ...official publication. "It is certain," writes the ...French charge at Rome to the Minister for ...Foreign Affairs (under date October 26th), ..."that a numerous body of Garibaldians have ...taken up a position in advance of Monte Rotondo ...at twenty kilometres from Rome; not more than ...one thousand. Pontificals can be sent against ...them. Although exhausted by fatigue, the army ..."Moniteur" says that numerous adhesions have ...reached the Imperial Government, and the ...prospects of a diplomatic assembly really taking ...place are certainly greater than they were last ...week. The objections of Russia and Prussia ...appear to have been overcome; England is ...thought to have consented, because she would ...not be the only Power left out; and the two ...parties chiefly concerned—Italy and the Pope— ...are said to have determined on joining the ...discussion. With respect to the Pope, the ...Florence correspondent of the Paris ...*Temps* makes a very remarkable statement. His ...Holiness, we are told, asserts that, in obedience to ...his oath on assuming the Pontificate, he must ...maintain his *non possumus* as to the temporal ...power, but that it is not impossible that his ...successor might come to some arrangement ...with the King of Italy. If Pio Nono has really ...made such a remark, the difficulties of the case ...are greatly lightened. That and the gradual ...concentration of the French regiments on Civita ...Vecchia, with a view to the departure of some ...or all, would go far towards reconciling the ...Italian people to their recent disappointment. ...But as yet the Conference is in the clouds, and ...it is difficult to speculate on a situation which ...varies in its aspect almost from hour to hour.
